

FEATURES

- Significantly reduces scours
- Calves love the taste
- Enhances resistance to disease
- Aids digestion processes
- Calves grow to weight quickly and wean earlier
- BioGro certified input for organics

HOW TO USE OPTIGUARD

- Easy to feed, OptiGuard can be mixed into colostrum and milk. Simply stir to reconstitute
- OptiGuard can also be added to your calf meal mix, or placed directly into feed troughs to allow calves to self-manage their intake
- Addition rates from 10gm per calf per day - or ad-lib as necessary. Calves will self-manage their intake
- Please ensure calves have access to plenty of fresh water

The advertisement features a woman, Lannah Johnson, standing in a green field with a herd of black and white calves in the background. She is wearing a black jacket and is petting one of the calves. In the foreground, two calves are eating from a wooden trough. The OptiGuard logo is at the top left, and a circular inset shows a close-up of the product being added to a trough.

OptiGuard™
premium scour prevention

"Our calves are looking healthy and amazing. In all honesty it's the best product we have used for calving."

Lannah Johnson, Cambridge
